

## RAMSES GALLEGO

With a background education in Business Administration (MBA) and Law, Ramsés is a +15 year security professional with deep expertise in the Risk Management and Governance areas. Ramsés is now Security Strategist & Evangelist for Quest Software where he defines the vision of the security discipline and oversees the deployment of services. Before, he was at CA Technologies for 8 years, was Regional Manager for SurfControl in Spain and Portugal, and just recently Chief Strategy Officer of the Security and Risk Management practice at Entelgy. Ramsés has been serving for three years in ISACA's CISM and CGEIT Certification Committees. He is honored to have been the Chair for ISACA's ISRM Conference and is now Research Director at the Barcelona Chapter and part of the Program Committee for the events SecureCloud 2010 and 2012. Ramsés has played an instrumental role in the Planning Committee that has prepared first-ever ISACA's World Congress in Washington, June 2011. He has also been part of the ISACA's CISM PATF Task Force as well as he is serving in the Guidance & Practices Committee for third year from where deliverables are being created for the community. Ramsés believes that a revolution (rather than an evolution) is needed when considering the move from technology to enterprise risk and that the cloud dimension offers incredible opportunities for businesses today. Ramsés thinks that Governance is essential to facilitate innovation in this changing business environment and holds many certifications that combine different knowledge areas and broaden his vision on technology within the marketplace. Ramsés is a CISM (Certified Information Security Manager), CGEIT (Certified in the Governance of the Enterprise IT) and a CISSP (Certified Information Systems Security Professional). He is the proud owner of the SCPM (Stanford Certified Project Manager) from Stanford University, California, one of the first experts with the CCSK (Certificate of Cloud Security Knowledge) and also an ITIL and COBIT Foundations certified professional. He also develops results-oriented, business-focused, people-driven projects due to his Six Sigma Black Belt accreditation. He has been nominated for ISACA's Board of Directors for the term 2012-2013 and he lives in Barcelona, Spain, with his wonderful wife and his two loved kids.
